

Quick Set Up Guide for the Mobility App (Android & iPhone/iPad OS)

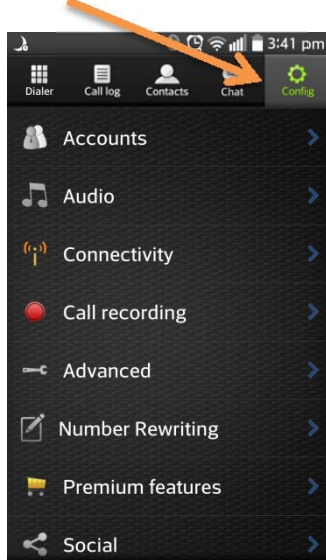

Step 1) Go to your relevant app store (for iPhone/iPad-App Store and Android-Play Store)

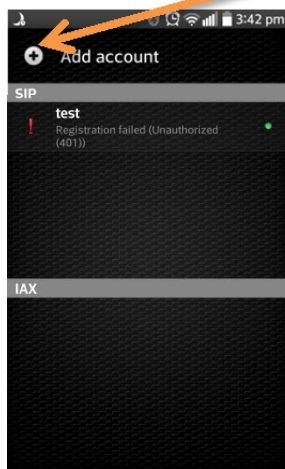

Step 2) Search for and install the Zoiper application(free version)

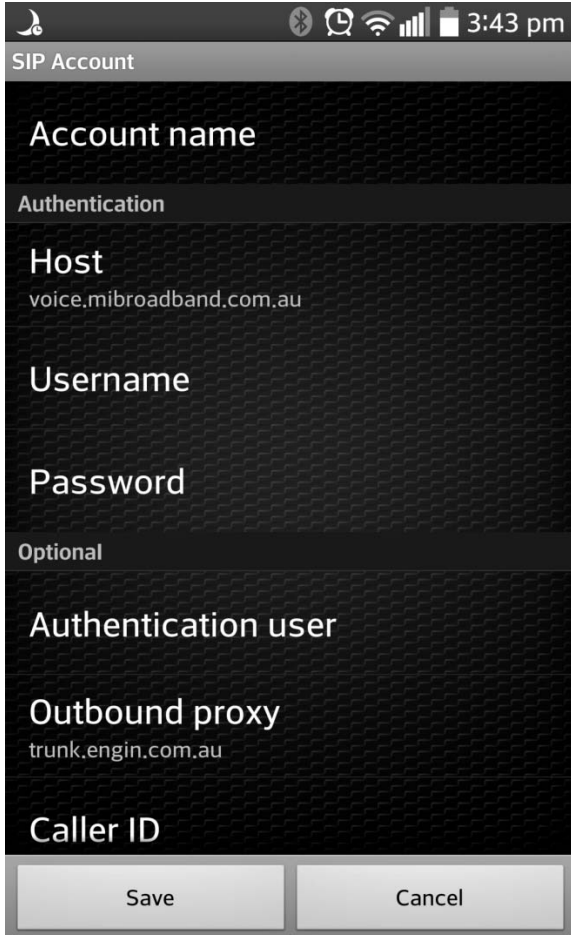

Step 3) Once the app is downloaded press it and on the opening screen press button labelled “Config”

Step 4) Next press the “+” to add a new account

Step 5) You will need to change the following settings in this section

SIP Account

Account name

Authentication

Host
voice.mibroadband.com.au

Username

Password

Optional

Authentication user

Outbound proxy
trunk.engin.com.au

Caller ID

Save Cancel

Account Name: Your Company Name or a Name of your Choosing

Host: voice.midbroadband.com.au

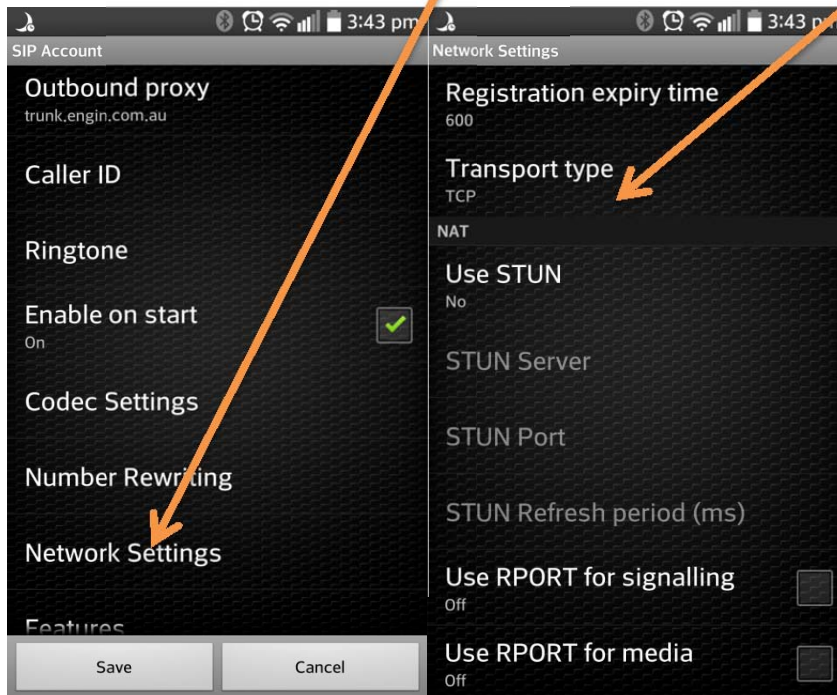

Username: SCA1

Password:

Authentication User: Phone Number used in username

Outbound Proxy: trunk.engin.com.au

Step 6) Next scroll down and click on Network Settings , press the Transport type and change it to TCP

Step 7) Save the settings and exit out to the main screen. If it has been set up correctly the account should have a green tick and say "account is ready", also you should see a green tick appear at the top of the screen to indicate that service is active
